

Arts & Adventure Summer Program 2011

Offering kids adventures in Missoula's great outdoors
with a focus on the fine arts and natural sciences
and swimming lessons, too!

June 14-17 Clay Creations

Explore the plants and animals of Montana through clay. We'll take trips into the local woods, and then create ceramic works based on our discoveries. Beginners are welcome!

June 20-24 Music Makers

Through song, dance, and painting, we will celebrate music. Local musician's will visit and perform, and we will create instruments of our own as well.

June 27-July 1 The Salty Sea

Let's pretend to be there! We will create our own beach, and learn all about life in and around the ocean. Watercolor and paper mache will be our media this week.

July 5-8 Science Playground

We'll explore the world of natural sciences this week, as we venture into the woods and bring our findings back to our microscopes! The children will illustrate and log their discoveries, and learn about adults doing the same!

July 11-15 Wet & Wild

Enjoy conducting water experiments, playing water games, and exploring the "waters" of Missoula. This week prepare to get wet and have some fun.

July 18-22 Plein Air Painters

We'll bring our markers, paints and camera out with us each day to create artworks of our fantastic landscape. Then we'll close the week with an exhibit and celebration!

Why are you choosing this program for your child?

Are there specific interests or attributes you see in your child that you would like us to know about?

We will be out on the trail and all children will help carry personal and shared items.

Would your child have any difficulty walking for an afternoon while carrying a small pack?

Please list all medical conditions/allergies/etc that we need to be informed of?

Do you have any additional comments, concerns, or questions?

Please detach this portion and keep for your records.
